

Save one life and we save the world

FACTS

Additional expenditures for The Phoenix Charity often fall under the following:

- Rape Kits (Each kit is \$5,000)
- Emergency Temporary Housing
- Emergency Hygiene Kits/Clothing
- Recovery of Victims
- Education (Life Skills/Outreach Programs)
- Donations and support to local safe houses
- Support of local law enforcement agencies

The Phoenix Charity sees approximately 10 – 500 rescues per month.

Often those The Phoenix Charity works with are “in the system” with no family to call their own. Family members are often deceased, in jail or the ones who sold them to their abusers.

The Phoenix Charity is launching a secured location in Houston first, with plans to expand to Dallas, Austin and San Antonio.

- Startup cost for establishing each location is \$80,000
- Once established, the cost for running all 4 locations is approximately \$150,000 per year

Sex Slavery and Human Trafficking

- Trafficked children range in age from months old-18
- Children as young as 6 months are lost to trafficking every year.
- Approximately 300,000 girls, from the US alone, the ages of 8-12 are bought, sold or otherwise lost to human trafficking every year, often by those they should have been able to trust the most.
- 600,000 to 800,000 are exploited for sex in the US yearly.
- 8 out of 10 girls trafficked will go through Houston.

Gang Violence

An alarming number of children are without parents, family or structure of any kind. For survival, they turn to their peers. They tattoo their 'new' family affiliation, not realizing this tattoo binds them whether an active participant or not. What they thought was protection, now becomes their prison.

You can make a difference in the life of another
